Recently graduated from a coding boot camp, I enjoy proving myself with different challenges. My background is in finance and economics, and thanks to that I can bring analytical and financial management along with skills such as critical thinking, problem-solving, organization, and adaptability. I would define myself as an adaptable team worker and quick learner with a strong work ethic.

KEY SKILLS

Google Analytics | Google Tag Manager | Google Data Studio | Tableau | React | MongoDB | MySQL | HTML |CSS | JS | Python | BigQuery | Agile practices | Financial analysis | Stakeholder management |
